Supporting vulnerable people in the Vanni Appreciation Vanni Rehabilitation for its tireless support to the people.

Vanni area was heavily damaged by the conflict in 2008 and 2009. All the people displaced for a year and came for the resettlement in 2010. They came back to their home without anything. Further, many family had lost their loved one or many and resettled people came with unrecoverable war injuries. People faced many struggle and it's continuing. But people are recovering with great support that you all gave on a right time has good feedback in the past 5 years. Many families are steadily recovering.

I know **Vanni Rehabilitation Volunteer** for the last few years. He is always thinking to support very poor people and venerable people through "**Vanni Rehabilitation**". He used to visit personally to the affected families and took initiatives giving immediate support. Those families now live with hope. His frequent visits confirmed the projects run as expected. The vulnerable people still need your support and assistance. I am sure that **Vanni Rehabilitation Volunteer** will continue his task and helps to vulnerable people.

Our organization has very good connection with "**Vanni Rehabilitation**" **Organization** project. We got support through **Vanni Rehabilitation Volunteer** and implemented. Hence, he is very reliable source to mobilize the donor funds to vulnerable people and implement projects. On behalf of Kilinochchi Education Development Trust, I appreciated **Vanni Rehabilitation Volunteer** for his commitment and services to the needy people.

Wish you all the best

Thank you

Dr.T Sathiyamoorthy
